

Schedule UTQ/BKO cohorts 2025

Please don't wait too long to apply for one of the cohorts, as they fill up quickly. Your spot is secured as soon as we receive your completed application form with signatures. Please check <https://bko.eur.nl/info> for the current overview of available spots per cohort

Important:

- It is only possible to follow the UTQ (BKO) if the participant also teaches during the trajectory. This is because we need to plan a lesson observation during the trajectory.
- In total the trajectory will take about 70 hours of your time (this includes preparation, course and homework). Make sure you can participate during this period of time and discuss with your supervisor.

Procedure:

1. Select a cohort (preferably also an alternative).
2. Select one of the MicroLabs (Supervise or Feedback) that you want to follow with your group.
3. Fill out your choices on the application form.
